

PROFESSIONAL SUMMARY

A highly skilled and results-driven Cloud Security Engineer with experience in full-stack development, seeking a Software Engineer position to leverage my expertise in backend and frontend technologies, cloud infrastructure, and database management. I am eager to contribute to the development and maintenance of scalable platforms and work on live production projects.

EDUCATION

Tansian University Umunya

Bachelor's Degree in Biochemistry  
2008 – 2012

Federal College of Education

Post Graduate In Diploma In Education  
2014 – 2015

SKILLS

- Frontend: Node.js, HTML, CSS, JavaScript
- Backend: Java, Node.js, PHP
- Database: MySQL, PostgreSQL, SQL
- Cloud Technologies: AWS, Azure, Google Cloud Platform
- API & Microservices: RESTful APIs, Microservices Architecture
- Tools: Git, Docker, Jenkins, Kubernetes

PROFESSIONAL EXPERIENCE

Cloud Security Engineer & Software Developer

Capstone Project: Online Banking App

Digital Witch Company | May 2023 – Present

- Led the development of an online banking application from concept to successful deployment.
- Backend: Utilized Java for robust backend development, ensuring the application's security and performance.
- Frontend: Developed the user interface using Node.js, delivering a seamless user experience.
- Database Management: Designed and managed the database using MySQL, optimizing it for efficient data storage and retrieval.
- Successfully delivered the project, meeting all client requirements and ensuring smooth operation in a live production environment.
- Ensured the application's scalability and security by implementing best practices in cloud security.

Software Development & Cloud Integration

- Developed and maintained cloud-based applications, focusing on performance optimization and security.
- Collaborated with cross-functional teams to implement APIs and microservices architecture.
- Utilized cloud technologies to enhance application performance and scalability.

Professional Attributes

- Proven track record in live production project development.
- Strong problem-solving skills with a focus on performance and scalability.
- Excellent communication and collaboration skills.
- Ability to work independently and effectively in a remote environment.
